

CPH Pig Seminar January 29th, 2020
Up to date with pig research

Place: University of Copenhagen, Aud. A2-82.01 (3-02), Thorvaldsensvej 40, 1870 Frederiksberg C
Registration: 8:30 - 9:00

Time	Presenter	Title
9:00-9:10	Jens Peter Nielsen <i>Professor, IVH</i>	Welcome
Key note lectures:		Chair: Henrik Elvang Jensen
9:10-9:20	Hans Houe <i>Professor, IVH</i>	The Danish Veterinary Consortium - first experiences
9:20-9:45	Kåre Mølbak, <i>Professor, Director, SSI</i> Lars Erik Larsen, <i>Professor, IVH</i>	Pigs as a source of human infections and vice versa - influenza as an example
9:45-9:50	Discussion	
9:50-10:15	Francesc Molist <i>R&D Manager, Schothorst Feed Research, The Netherlands</i>	New insights in dietary control of post-weaning diarrhea
10:15-10:20	Discussion	
10:20-10:50	MORNING TEA/COFFEE	
Session 1: Reduction of antimicrobial usage		Chair: Jens Peter Nielsen
10:50-11:05	Julie Lynegaard <i>PhD student, IVH</i>	A low protein diet supplemented with free amino acids reduces post-weaning diarrhoea
11:05-11:20	Esben Østergaard Eriksen <i>PhD student, IVH</i>	Post-weaning diarrhea in herds not using medicinal zinc
11:20-11:35	Karen Pankoke <i>Scientific assistant, IVH</i>	A longitudinal study of infectious lesions in nursery pigs
11:35-11:50	Ana Herrero Fresno <i>Assistant professor, IVH</i>	Genomic characterization of E. coli F4 positive strains from post-weaning diarrhea
11:50-12:00	Discussion	
12:00-13:00	LUNCH	
Session 2: Foetal development, new-born piglets		Chair: Anni Øyan Pedersen
13:00-13:15	Anja Varmhløse <i>Assistant professor, IVH</i>	Foetal development in highly prolific sows
13:15-13:30	Duc Ninh Nguyen <i>Assistant professor, IVH</i>	Immunity development in piglets with low birthweight
13:30-13:45	Kristine Holgersen <i>Post doc, IVH</i>	Effects of treatment with IGF-1 in preterm pigs as a model of preterm infants

13:45-14:00	Charlotte Amdi Williams <i>Associate professor, IVH</i>	Iron supplementation of piglets through milk feeders
14:00-14:05	Discussion	
14:05-14:35	AFTERNOON TEA/COFFEE	
Session 3: Pig health		Chair: Björn Forkman
14:35-14:50	Franziska Hakansson <i>PhD student, IVH</i>	Tail biting in piglets: behavioural profiles of biter and receiver
14:50-15:05	Trine Hovmand <i>PhD student, IVH</i>	A longitudinal study of umbilical outpouchings in Danish pigs
15:05-15:20	Anders Miki Bojesen <i>Professor, IVH</i>	Development of a <i>Streptococcus suis</i> vaccine
15:20-15:35	Pia Ryt-Hansen <i>Post doc, IVH</i>	Transmission dynamics and impact of Influenza A virus in pigs
15:35-15:40	Discussion	
15:40-15:45	Jens Peter Nielsen <i>Professor, IVH</i>	Concluding remarks

IVH: Institut for Veterinær- og Husdyrvidenskab/Department of Veterinary and Animal Sciences

SSI: Statens Serum Institut
